

Name: Justin Lovo

Age: 10

Justin is a happy, loving, and affectionate boy full of life and curiosity, constantly yearning to know more about the world he is growing up in. Perhaps what makes Justin a bit more unique than most kids is that at the age of 3 he was diagnosed with Autism. This disorder affects his ability to communicate and relate to others, he has significant delays in cognitive, academic, and sensory processing skills.

He cannot express his wants or needs. This is the obstacle that affects him most, the ability to talk, and express himself. Justin is stripped of this gift by his disorder. He frequently gets very frustrated when he cannot communicate. Unfortunately, he resorts to withdraw and retreats into seclusion in his own world. Commonly he behaves as if he is alone, even in a room full of people.

Justin's mother is doing all that is possible to help him overcome his challenges. He possesses great potential, but intensive therapies are needed at this critical point in his life. Sponsors are just as crucial to his need because they give the necessary opportunities Justin requires in order to receive the therapy he desperately needs. Health insurance does not cover this type of care that could change his life. Justin's mother is willing to do anything she has to for her angel to overcome his inabilities, however, financially she is running out of options. Any donation whether big or small can make a world of a difference in Justin's life.

If you would like to donate, please send a check to Angels Reach at 8325 W 24 St. #5 Hialeah, FL 33016 or visit them on line at www.angelsreach.org.

May God return blessings to you in multiplied measures.
